

Lyclear Sensitive Treatment

How to get rid of head lice with Lyclear Sensitive Treatment

How to use

1

Check dry hair lock by lock for head lice using the enclosed anti-lice comb. To avoid re-infestation, carefully clean the comb in lukewarm soapy water.

Put a towel around the child's shoulders and apply a sufficient quantity of Lyclear Sensitive lotion evenly onto dry hair paying particular attention to the neck and the area behind the ears. Be sure to cover all the hair and scalp.

2

3

Massage well from roots to tips. Leave on overnight (8 hours). This is vital for a successful treatment.

4

Wash the hair the morning after with a normal shampoo and comb the wet hair with the enclosed anti-lice comb to remove dead head lice & eggs.
